

Your Older Person's Team

Meet the team

Care Coordinators

Victoria Higginson & Stephanie Hawkins

Victoria and Stephanie are Care Coordinators who work closely with your GP Surgery in the Devizes Group of Practices. Both have worked in healthcare and with older people for a number of years. Victoria is a Registered Mental Health Nurse and Stephanie is a Senior Healthcare Assistant.

What do they do?

As Care Coordinators, Victoria and Stephanie will connect you with supporting agencies, help you to source information and services, and will offer impartial advice. Their aim is to promote your optimum independence and they will be yours, your carers' and your family's point of contact and a link with your GP surgery.

How do I contact the team?

You can request support from the team at any time by contacting your Surgery in the usual way and asking for a call back from the Older Person's Team.
